Projects

SmashScribe | Python | Tkinter

- Desktop app designed for Super Smash Bros. players, providing tools for strategic notes on characters and player tags.
- It features character note-taking from a dropdown menu, player tag management for adding, selecting, and deleting tags with individual notes, and data persistence through file handling for session-to-session data retention.

PassWord Manager | Python | SQL | Tkinter | Hashing

- Pokemon Themed Password manager that allows users to create an account and input their passwords for websites.
- This Password manager Hashes all created passwords in the SQL database and automatically copies the password to the user's clipboard when selected.
